"Dammit, He's Dead," Says Headstone for Dog

Ablene, Tex.—Six hundred students and the entire faculty of Simmons college here attended the funeral of "Dammit," a white bulldog which for four years had been the college mascot. "Dammit" was buried in a casket on the college campus. A band played and a student delivered the funeral oration on "Every Dog Has His Day." Over the grave was placed a marble headstone bearing the inscription, "Dammit, he's dead."

Two Dental Needles in Jaw.

Shelbyville, Ind.—X-ray pictures of the mouth of Harry Howell, son of Mr. and Mrs. Elmer Howell of Marion township, Shelby county, disclosed two pieces of steel dental needles, each slightly less than two inches long. It is believed they had been left there by an Indianapolis dentist recently when Howell had teeth extracted. Operations for the removal of the two pieces of steel needles were made by incisions from the back of the neck.

JERUSALEM CITY TO BE SAVED

Historic and Romantic Aspects Will Be Preserved in Improvement by Zionists.

London.—Prof. Patrick Geddes, town planner, who has in hand projects for the improving of Jerusalem for the Zionist organization, aims at making the changes without destroying the historic and romantic aspects of the ancient city, according to a statement which he has given to the Zionist Bulletin.

Prof. Geddes states that one of his first tasks will be in connection with the Hebrew university, and he hopes to begin on that next year, utilizing buildings already erected. Research laboratories for chemistry will be a feature of the school. Dr. Weizmann, the Zionist leader, who has been reader in biochemistry at Owen's college, Manchester, will be in charge of the research work.

Prof. Geddes says he hopes also to start a Palestine museum and suggests that nothing more of historical and archaeological interest should go out of the country.

The World's Largest Tire Factory Building 30x3, 30x3½ and 31x4-inch Tires

Owners of small cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages.

They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30x3-, 30x3½-, and 31x4-inch sizes.

They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned.

If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$20.00
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$3.90

The Best Insurance Against Influenza.

Prominent Educator Believes That Vapomenthia is a Sure Preventive.

Dr. R. M. Brame, discoverer of Brame's Vapomenthia Salve, has a letter from C. C. Wright, Superintendent of the Wilkes County, N. C. Public Schools, in which he says: "We have used Brame's Vapomenthia Salve for nearly all the ills for which it is prescribed and have always secured satisfactory results. If used in time it has never failed to break up colds, usually the forerunner of Grippe, Influenza and Pneumonia. . . . I speak from personal observation. I believe if this preparation is used in time it will prevent the development of pneumonia in every instance, if used according to directions."

The strong statements are fully justified by the remarkable recoveries that follow. Brame's Vapomenthia Salve is applied freely over the chest and throat and inserted in each nos-

tril. Brame's Vapomenthia Salve penetrates the pores of the skin, relieving congestion, at the same time healing vapors arise and are breathed through the mouth and nose, loosening the phlegm and causing the patient to breathe freely. Its absolute reliability is evidenced by dozens of unsolicited testimonials. Brame's Vapomenthia Salve will relieve pneumonia, influenza, grippe, pleurisy, bronchitis, whooping cough, catarrh, asthma, tonsillitis, hay fever and inflammation of the skin.

Vapomenthia is applied externally, and it will not stain the clothes, as other salve do. No home should ever be without it. Buy it from your dealer or direct from the Brame Drug Co. North Wilkesboro, N. C. A small bottle costs 30c; a much larger one, containing six times as much \$1.20.

SAYS WOMAN IS A CHATTEL

British Husband Bases Divorce Damage on Claim Woman Has No Legal Status.

London.—It is a basis of a husband's claim for divorce damages that his wife is still in fact if not in law a chattel of his. This was the theme of an interesting argument before Justice McCardie in the divorce court, arising out of a case in which damages were sought against the co-respondent by the husband. Counsel for the petitioner said that up to the matrimonial causes act of 1858 a woman was regarded as a chattel and the jury had to award damages according to her value to her husband. His lordship then asked, when had a

wife ceased to be regarded as a chattel. Counsel for the petitioner said he had not suggested that this idea had gone.

Judge—You say she is still to be regarded as a chattel?

Counsel—Yes, with slight modifications. The question in assessing damages is what she is worth.

Judge—Then you call her quasi chattel?

After some further discussion Justice McCardie asked if as the result of counsel's researches he could show that a wife could bring action against the seducer of her husband.

Counsel said there was no such case and that there could not be such an action because a woman had not the same legal status or the same legal rights as a man.

UNIQUE WILL IS BARRED

Last Testament, Written on Tablecloth, Is Rejected by Court in San Francisco.

San Francisco.—A tablecloth 8 feet wide by 10 feet long was presented to Judge Graham as the last will and testament of Mrs. Helen Scott and was rejected by the court, not because of its size, but because Mrs. Scott forgot to date the will when she wrote it.

Mrs. Scott, who was a milliner, committed suicide in her flat at 1034 Sutter street on November 3 last. At the time she was estranged from her husband, James Scott, who had gone to Honduras. The will written on the cloth is as follows:

"The trunk in the hall to Fred Spreen, the chair to Mrs. Allen. You will find money in the bank to pay all expenses. Put my black dress on me. Love to all. HELEN."

The will was offered by William M. Varney, a brother of Mrs. Scott.

PLAN STATE OF MANHATTAN

Bill in New York Assembly Would Add Another Star to the Flag.

Albany, N. Y.—The state of Manhattan, composed of the counties of Suffolk, Nassau, Queens, Kings, Richmond, New York, Bronx and West Chester of New York state, would be sanctioned by the legislature if a bill introduced by Assemblyman Cuvillier (Dem.) of New York became a law.

The act would require ratification by a referendum next November.

Assemblyman Leininger (Dem.) of Queens introduced a bill designed to create a state of Greater New York.

This is a more ambitious scheme than that of Mr. Cuvillier, as it not only includes all the counties in the proposed state of Manhattan, but would contain in addition the counties of Putnam, Dutchess, Ulster, Greene and Sullivan.

JAPAN HOLDS ON TO COTTON

Government Decides to Prohibit Sending of Yarns and Tissues Out of the Country.

Tokyo.—The Japanese government has decided to prohibit the exportation of cotton yarns and cotton tissues in order to check the advance of prices.

Owing to the shortage of supply against the ever-increasing demand, the price of raw cotton has gone up 197 per cent.

It is alleged that this is in part due also to speculative dealings of cotton yarn brokers, who have taken advantage of the buoyant market and the fast falling supply to deal in futures.

The government has decided also to exempt from customs duty cotton yarn and cotton tissue imported from abroad. Several large spinners in Osaka and elsewhere have ordered cotton yarns from the United States and China and many Japanese cotton mills will augment their manufacturing capacity with spindles and other machines imported from the United States.

HOME-MADE BOUDOIR PILLOW

in blue, decorates the center. The frill of embroidered lawn is easily purchased by the yard, and is an exquisite finish for the frail boudoir pillow.—The Christian Science Monitor.

Flowers on Tailored Gowns.

Woolen embroidery, silk embroidery or jet embroidery are used on both coats and skirts; so, of course, is fur. The panels of the dress may be embroidered, pockets are embroidered, waist belts are decorated in the same way, but nothing is quite so new as the fashion of working a bright flower in wool or silk in some unexpected place and half draping it with the folds of a pannier. This is done on tailormades as well as on afternoon frocks.
